Dear Professor Idsvoog,

Although the Institute has no records responsive to your request, we have an Athletics Academic Steering Committee that provides oversight and accountability for our student athletes and supports their academic success. This includes reviewing student-athlete enrollment, clustering, special topics classes and other academic issues. This committee is chaired by our Vice Provost for Undergraduate Education and includes the Registrar, Vice Provost for Enrollment Services, Dean of Students, faculty representatives and members of the Georgia Tech Athletic Association.

We are confident in the process and practices that we have in place at Georgia Tech and we are proud of our hardworking student athletes. Good luck on your project.

Jennifer S. Herazy, M.Ed.

Associate Provost for Operations

Office of the Provost and Executive Vice President for Academic Affairs

Georgia Institute of Technology

225 North Avenue, NW

Atlanta, GA 30332-0325

Office 404.385.3037
